PROFILE

Enthusiastic and self-driven Junior Web Developer with a strong foundation in PHP, Laravel, JavaScript, and front-end frameworks like Bootstrap and Tailwind CSS. Proven ability to build dynamic, responsive web applications through personal study projects. Eager to apply my skills in a professional environment and continue growing as a developer.

EDUCATION

History (2nd Year, Dropped Out)
Dagon University
2016 - 2020

TECHNICAL SKILLS

- HTML, CSS, JavaScript
- JavaScript, jQuery
- Bootstrap, Tailwind
- Vue.js
- PHP, Laravel
- Git & Github

LANGUAGE

- English(Intermediate)

WORK EXPERIENCE

Web Development Intern (Job Training)   **Feb 2024 - Apr 2024**
Pico SBS

- Gained hands-on experience in web development practices, tooling, and best practices while collaborating in a team environment.
- Worked on enhancing existing web applications using PHP and Laravel, improving user experience and backend functionality.

PERSONAL PROJECT

Restaurant Order System

functionalities:

- Staff Management: Allowing admins to add and manage new staff members.
- Menu Management: Admins can add, update, and remove menu items.
- Category Management: Categorize menu items for easier navigation and selection.
- Table Management: Track and assign tables to customers.
- Order Status Management: Separate order status tracking for waitstaff and kitchen. Waitstaff can update the order status, while the kitchen has its own set of statuses for easier tracking.

Built with PHP, Laravel, Tailwind CSS for a responsive design, and jQuery for interactivity.

Blog System

functionalities:

- User Registration and Login: Any user can create an account and log in.
- Blog Posting: Only logged-in users can create blog posts.
- Comment System: Logged-in users can add comments to posts.
- Admin Controls: Admins can manage blog posts by approving or canceling them.

Built with PHP and Laravel for backend functionality, Bootstrap for responsive design, and jQuery for interactivity.
